OUR WASHINGTON LETTER

FROM OUR REGULAR CORRESPONDENT

WASHINGTON, Saturday, July 25 1868

CONGRESSIONAL

Last Saturday evening the President sent a Message to both Houses of Congress, recommending four new amendments to the Constitution Since the Democrats failed to nominate Mr Johnson, he had at his request for the second assortment of our fathers" and goes in for tinkering the Constitution He wants the Constitution amended so as to allow the people to vote direct for President and Vice President instead of voting for Electors He favors a term of six years instead of four, and would limit the President to one term By another amendment he wishes to provide that in case the President is removed by death impeachment or otherwise he shall be succeeded by a member of his Cabinet commencing with the Secretary of State and ending with the Attorney General He favors the election of U S Senators by the people, the same as members of Congress and favors the appointment of Judges of the Supreme Court of the United States for a fixed period instead of for life The Senate spent Saturday on the House bill for the protection of American citizens abroad The House was engaged on the funding bill Five members from Louisiana and two from South Carolina, were sworn in

On Monday the Senate continued the discussion on the bill to protect American citizens abroad Conners advocated the bill and Patterson of New Hampshire, and Morton opposed the reprisal clause Senator Williams offered an amendment, that in the event of the imprisonment of one of our citizens the President shall demand the reasons for such arrest, and if the reasons appear insufficient he shall demand the release of the prisoner, and if it be delayed, he shall take the necessary steps to enforce it. He made an able speech in support of his amendment and on the general question of citizenship

The President's message vetoing the Electoral College joint resolution was received and without reaching a vote on the Citizenship bill, the Senate proceeded to its consideration The resolution was passed over the veto by 45 to 8—the largest Republican and smallest Democratic vote ever given on a veto message All the anti impeachment Senators present—Framboll, Fessenden Henderson, Ross and Van Winkle—voted in the affirmative, and so did all the Southern Senators recently admitted None but dyed in the wool Copperheads—Buckalew Davis Doolittle, Hendricks, McCreery, Patterson (Tennessee) Vickers and Whyte, voted in the negative

The Senate went into executive session, and Senator Sumner reported from the Foreign Relations Committee, the Sandwich Island Reciprocity Treaty, with the recommendation that it be ratified Sumner made an able speech in favor of its ratification, and Fessenden followed in a speech against it.

The Senate spent the evening session on the bill to reduce the Army and Navy

In the House, two North Carolina members were sworn in and the Electoral joint resolution was passed over the veto 144 years to 36 nays

A bill was introduced extending the act of July 17, 1854 for the payment of the expenses of the Rogue River Indian war to two companies of Oregon volunteers.

Tuesday the Senate agreed to the report of the conference committee on the Indian appropriation bill A discussion arose on the question of adjournment, and occupied nearly the whole day. Hendricks made a violent speech, in connection with the bill to distribute arms among the reconstructed States, in the course of which he threatened that the President would veto the bill, and refuse to recognize the validity of the governments of the Southern States Sherman, Conness and Wilson replied, severely criticising the remarks of Hendricks and intimating that they would "sit here through summer's heat or winter's cold," in the language of the former, if the President attempted such a course The Senate passed a concurrent resolution, declaring that three fourths of the States, including Ohio and New Jersey having ratified the 14th amendment to the Constitution, it has become a part of the Constitution of the United States. In the House five members from Alabama were admitted to seats, and the funding bill passed—70 yeas to 68 nays The Senate concurrent resolution declaring that the 14th article of the Constitution has been ratified and is now a part of the Constitution of the United States, passed the House—126 to 52.

On Wednesday, the Senate spent most of the day in discussing the question of adjournment Hendricks made another threatening and very offensive speech, and was replied to by Sherman Howe, Morton, Drake, Nye and others. A resolution, offered by Sherman, was finally adopted—28 to 20—to adjourn next Monday to the third Monday in September The South Carolina Senators—Sawyer and Robertson—were sworn in The bill to protect American citizens abroad was again taken up, and Senator Williams' amendment was adopted in place of the reprisal clause, by a vote of 18 to 14 The Senate nonconcurred in the House amendments to the funding bill In the House another Alabama member was admitted to his seat, and the Senate amendment to the Alaska appropriation bill was nonconcurred in and a committee of conference asked for Banks, Loughridge, and Randall, were appointed to represent the House on said committee

Thursday the Senate passed the New York and European steamship bill, which gives an American company the carrying of the mails for ten years, that service now being performed by European companies The company is to receive the sea postage for their services Senator Corbett offered an amendment in these words "Provided such postage shall not exceed $500 000 per annum after the discontinuance of said inland postage" The amendment was adopted and the bill passed The bill to protect American citizens in foreign countries was taken up Senator Williams offered a substitute for the third section and it was adopted by a vote of 19 to 13 The remainder of the session was spent in passing minor or House bills granting pensions to about one hundred persons In the House a sharp debate occurred on adjournment The Senate resolution to adjourn next Monday to the third Monday in September was finally agreed to by a vote of 85 to 60 The Mississippi and Texas contested election cases were decided in favor of the sitting members Pond and Harper

Yesterday the Senate passed the House bill to protect the rights of actual settlers upon the public lands It provides that in no case shall more than three sections of public land be sold to any one purchaser for the purpose of speculation The Conference Committee on the Alaska bill, which having passed the New York and European steamship bill which having passed the House some weeks ago was amended in the Senate day before yesterday The report of the committee was agreed to by the Senate The report of the Conference Committee on the Alaska bill was also adopted The Senate was in executive session nearly all the time from noon to 12 o'clock at night. The House concurred in the report of the Conference Committee on the Alaska bill, striking out the preamble, which declared that treaties could not be negotiated with at the consent of the House So the bill is passed and the appropriation of $7,200 000 is made The vote on agreeing to the report of the committee was 91 to 50 The House passed a bill to provide for the more speedy reorganization of the States of Virginia Mississippi and Texas, and for other purposes," by a vote of 112 to 2 The House asked for a committee of conference on the funding bill but the Senate has not yet granted it

To day, as well as yesterday, the Senate and House both commenced their sessions at 10 A M The Senate passed the House bill to protect American citizens abroad, with Senator Williams's amendment The House concurred in the Senate amendments and passed the bill without a discussion So the bill, which has occupied so much time in both Houses, will become a law At two o'clock a Florida member introduced a resolution to impeach Andrew Johnson, President of the United States, for high crimes and misdemeanors, charging him with obstructing the execution of the reconstruction laws in the South The House voted to proceed to the consideration of the resolution—105 years to 1 Logan (Pendleton moved to lay the resolution on the table, which was rejected 100 nays to 80 years, and the resolution was referred to the Judiciary Committee The Senate is now [illegible] executive session and the lobbies are surrounded by a hundred Ethiopian and hungry office seekers, anxiously awaiting to be enlightened

NOMINATIONS CONFIRMATIONS AND REJECTIONS

On Monday the President nominated J L Dawson to be Minister to Russia H M Watts Minister to Austria Gen J A McClernand Minister to Mexico, Gen W S Rosecrans Minister to Spain O H Burbham Assessor of Internal Revenue for the Second District of California and T J Tuttle, Collector of the same District C N Felton, Treasurer of the United States Branch Mint at San Francisco and a number of other unimportant nominations Among the nominations sent in on Tuesday were W T Lockhard to be Register of the Land Office at Carson City Nevada and B F Chadwick, to be Receiver of the Land Office at Roseburg Oregon Among the nominations sent in on Wednesday was that of Wm Pidgeon, for Secretary of Idaho Territory, Robt Newell, Indian Agent for Idaho and James Marr Collector of Internal Revenue for Montana On Thursday—J Irving Burns Collector of Internal Revenue, and W T Stevens, Assessor of Internal Revenue for Idaho, John A. Clarke of Ill, for Surveyor General of Utah, and L C Clements, of Ind, for Register, and L B Hills of Utah for Receiver of the Land Office for the District of Utah, and Richard Linton, for Postmaster of San Francisco On Thursday night the Senate confirmed a long list of appointments Among the number was Robert Newell, Indian Agent, Idaho, and James H Wilbur, Agent of Yakima Indians Washington Territory Avery D Babcock was rejected for Indian Agent in Oregon Charles E Reims, of Kansas, was rejected for Consul at Honolulu Yesterday the President sent in a long list of nominations—among the number T L Dickey and J H Ashton for Assistant Attorney Generals of the United States.

THE SOUTHERN REPUBLICANS

Last Wednesday a number of the leading Republicans of the Southern States—including most of their Congressmen—held a meeting in this city They adopted resolutions denouncing President Johnson for his course toward the loyal people of the South, and severely criticising his message vetoing the Electoral College Bill declaring that Congress should legislate immediately for the relief of the loyal people of Virginia, Mississippi and Texas, in such a way as to secure to those States civil governments that Congress should pass a stringent law providing for the enforcement of the 3d section of the 14th article of the Constitution, known as the amendment, and that the revolutionary threats of the President and of the Democratic candidate for Vice President make it necessary for Congress to remain in session until after the Presidential election A preamble and resolution were then adopted, unanimously declaring that the interests of the country demand the immediate impeachment of the President of the United States, and pledging themselves to use their utmost endeavors to secure his conviction and removal from office The preamble and resolution were presented to the House to day

ECONOMY IN APPROPRIATIONS.

The appropriations for the current fiscal year, commencing July 1st, have all been made. The various estimates of the Administration amounted to $372,000 000, but the whole amount appropriated by Congress has only been $290,000,000 The amount, exclusive of the appropriations for the public debt pensions and bounties, is not quite $102,000 000 The same classes of appropriations for the last fiscal year were $111,882,789. It will be seen that Congress has appropriated much less than was asked for by the Democratic Administration, but that will not stop the demagogues of that party from howling about "Radical extravagance," consistency not being a part of their creed.

A REMARKABLE RAIN STORM.

Yesterday a remarkable rain storm swept over this part of the country By actual measurement at the Smithsonian Institute it was ascertained that two and a half inches of water fell in about two hours At Baltimore the storm was severer than here In a short time after the rain commenced pouring down that city was almost entirely flooded In some of the streets the water rose at the rate of two inches per minute A city passenger car was swept from the track on Gay street, and washed down Harrison street full of passengers Hundreds of stores were submerged and merchants were compelled to remove their goods to upper stories In many of the principal streets the water suddenly arose to a depth of from four to eight feet. The water rushed over many of the wharves several feet deep carrying sugar hogsheads, barrels, bales of hay, and everything before it, and in some instances undermining them The damage is estimated at from $3,000,000 to $4 000 000 It is reported that at Ellicott City, a village near Baltimore sixty persons were downed

THE TREASURY

It is stated that between three and four hundred Treasury clerks and employees mostly females, will be discharged between the 1st of August and the 1st of September This will be made necessary by the action of Congress in cutting down the appropriations Notwithstanding the fact that there are from fifteen to twenty thousand applications are now on file for appointments in the Treasury, and that the force is to be reduced several hundred below the present number employed, there are about one thousand applications for situations made every week K

A Few Quotations from Democratic Papers

The New Orleans *Crescent* (rebel), after developing the Blair project and considering the possibility that it may not succeed, boldly rushes into the arms of the revolutionists by declaring it the duty of the South to rule or ruin. "We ought, at least," says the echo of battle, "to do what we could to lighten our yoke by making it an equal despotism for North and South alike One more trial for State rights and constitutional liberty!"

The old rebel presses of the South appear, says an exchange, to be endowed with new life by the action of the New York Convention The Vicksburg *Herald* (rebel) says:

"Here is the easy solution of all these troubles We claim that we have these rights secured to us by existing laws Then let us execute them, and if they are prevented let the onus rest upon those who interfere In other words we owe it to ourselves to demand our rights and endeavor to exercise them, otherwise they will never be forced upon us It is the duty of the people of Mississippi to seat themselves square upon their rights at once."

The Richmond *Enquirer* (rebel) says "The letter which Blair published a short time since was calculated to do more to open the eyes of the people of the North to the designs of the Radical leaders than anything that has been published during the war"

A correspondent of the Napa *Reporter* states that Gen Grant while at Carrollton, Louisiana, on a certain occasion, was so drunk as to fall from his horse Now the shallow falsehood is made apparent when it is known that Gen Grant was not within one hundred miles of Carrollton at any time during the war

Letter from Victoria.

VICTORIA, August 9, 1868

I might give you a glowing description of our trip from Portland to Victoria, but a close adherence to the truth would disclose the fact that from the time the *Wright* crossed the Columbia River Bar until she reached Neah Bay, your correspondent was lying ingloriously in his berth, not caring whether the shores, near which we were sailing were rugged and rock bound or clothed with all the beauties of nature We did not feel like getting up The good fare that the table of the *Wright* displayed had no temptation for us We couldn't drink nor smoke—I was going to say that we could not speak, but just now I recollect that we very often called out "New York!" It is rather a singular fact now that I reflect upon it that I heard the same exclamation from every one of the passengers The weather was pleasant, with little wind, but there was a very heavy swell, which in a very short time put all the passengers on an unenviable equality and saved the ship's stores from any heavy drawing. They did raise a yarn that the ship did not make anything on that score, for the reason that our friend P—, who was not sea-sick, not only ate his own share but that of the other passengers, so as to prevent the ship from making too much money out of his friends The story originated with an interested party, so I do not believe it, although any one acquainted with him knows that he is one of the best fellows in the world and would do most any favor for a friend

After a run of 24 hours, we reached Neah Bay, when our troubles ceased and our appetites returned This is a very pretty little harbor, a short distance inside the entrance to the Straits of Fuca, and is protected from the wind by a small island There are two entrances, narrow but not difficult to enter There is an Indian village located here, in charge of Indian agent H. Webster We dropped anchor and remained there some two hours, for the purpose of discharging freight The passengers went on shore and were hospitably received by Mr. Webster, who made our stay so pleasant, that it was with regret we left. There is a very pretty bay, some two miles in length, fish and game are abundant, the surroundings are beautiful, and we see no reason why this should not, in time, be a favorite place of summer resort for the pleasure seekers of Puget Sound Web Foot.

The voyage from Neah Bay to Victoria, a distance of sixty miles, was delightful, the water as tranquil as the Willamette; the scenery similar to that of the Columbia. In fact, it required very little stretch of the imagination to think that we were on the Columbia, the shores on each side being plainly visible the entire way, although the distance across is from eight to twenty-five miles

I was rather disappointed on entering the harbor at Victoria to find it so small, for the fact of the vessels in the harbor being in such a contracted space, gives it more of a business air than if the harbor was larger and the shipping more scattered.

The wharves are not so extensive as those of Portland, and from a survey I made of them, I should think that if the piling is not soon renewed, it will be but a few months before there will be no wharves at all. The worms devour the piling very rapidly, and there is a great deal of it that is entirely eaten through. Whether in consequence of the destruction of their wharf and determination not to rebuild, I do not know, but the Hudson Bay company are

Now Work to Do

The Republican Union people of Oregon seem to be the only ones in the United States who are not wide awake, and active in the campaign now opened They appear to take it for granted that the State cannot be re deemed from the Democracy and that there fore, an effort would be a useless expenditure of energy Greater wonders than would be a reversal of the vote of last June, have often however, been seen in this world of ours and its later works have been accomplished where the prospect of success was more du bious Our people should remember that no victory was ever gained without a fight of some sort. Nothing to be proud of was ever achieved without a struggle Had the war for the preservation of the Union been aban doned when our soldiers met their rout at Bull Run, we should now have no government and no proud record of a nation redeemed It is as much folly to sit down tamely resigned un der defeat when with us, right, justice and law go down together The soldier whose creed is that of the right is not, morally a victim at will. He is bound to fight, to fight on and again, when down, he must rise if he can, and hardly, he must rally with the cry of "Excelsior," if, fortunately, his adver sary give way, he must push him with double vigor till he shall surrender There is no such thing as an end to the struggle, till the wrong shall be vanquished and the right vin dicated.

We believe that the Republicans of Oregon have felt that during the great struggle for Na tional life, they were in the right and that the Democracy were wickedly wrong We have not felt that their convictions of duty are as honest as our own, that they as well under stand the inevitable consequences of a Demo cratic victory, whether gained at the bayonet s point or at the ballot box. Are they now ready then then to see blood-dyed corpses on the shores of our rulers and high carnival amidst the ruins of the Republic? We can conceive of but one answer: No.

We are met with success or defeat we have [illegible] and to that we owe [illegible] and for it we must work. It may be [illegible] the State thus fall [illegible] of the year after, but, as truth is [illegible] eternal, we shall win But [illegible] and the next [illegible] still the spirit which led our [illegible] We [illegible] will should [illegible] struggle, and an [illegible] Let the Union men of Oregon [illegible], close up the [illegible] and move immediately on the enemy s [illegible] Let us fight it out on this line

It is said that the bonds of all the Southern [illegible] in a body refuse upon their ad [illegible] tion in Congress That [illegible] Democratic political action [illegible] fact of a [illegible] sort, that immediate [illegible] the bill y of the Democratic Na [illegible] rivers, the money market became [illegible] gold which had been [illegible] ing at about 140 to 140¾ [illegible] up and [illegible] and other [illegible] to go down [illegible] the part of Democratic political [illegible] the credit of [illegible] in favor of [illegible] the government [illegible] The [illegible] 1 gain up to [illegible] the last step [illegible] the issue [illegible] that gold up from even 200,

[illegible] Democrat of Cala [illegible], California, has come out for [illegible] Colfax He made a rousing speech at [illegible] on the 5th inst, and pledged [illegible] to [illegible] his votes heard in every can [illegible] of [illegible] in California before [illegible] of May. Judging from the pat [illegible] which the Democ [illegible] to give him [illegible] he was stumping for them, he must be a Vulcan and likely to do them some harm [illegible] to [illegible] of him as the "eloquent [illegible]," "that gallant Democrat, Al [illegible]," "the old mountain war horse of the [illegible] Democracy, A. P. Dudley, of Cal [illegible]."

The New York *World* however butter its [illegible] is [illegible] erally in tone, and [illegible] not [illegible] al efforts to be fair and [illegible]. It thus rebukes the small [illegible] which daily and week [illegible] with [illegible] abuse of General Grant's position is above [illegible]. Calumny levelled at [illegible] himself [illegible] the calumniator No [illegible] low [illegible], however vigorously op [illegible] the General Grant's election, will be so [illegible] or such words to calm or hate him The [illegible] editor should read the *World* and learn [illegible] the leading Democratic organ of [illegible] puts upon the work in which he is [illegible] gaged.

We learn from Mr J W P Huntington [illegible] down from Salem Wednesday after [illegible] and night, that just before he started, a little boy, son of Mr I R. Moores, had [illegible] himself with a pistol with which he was playing Mr H. did not learn whether the injury was serious

An exchange says that in case Seymour and Blair are elected, Semmes, the pirate, would be an appropriate minister to England He would be thoroughly posted in relation to the *Alabama* claims

A. A Sargent, the Republican candidate for Congress in the Second District of California, says he will carry the District by two thousand majority

Indians.—An Indian man named William O'Neal, of Marion county, was brought down to Salem yesterday by Mr W S Barker, and placed in the Insane Asylum

The Democratic majority in the late Mississippi election is reported at about 7 000 The Republicans claim to have proof that 15,000 illegal votes were cast

Henry Edgerton, the eloquent Union orator arrived on the last steamer and will stump the State of California for Grant and Colfax

That's What's the Matter

In 1863 Seymour said in a speech in New York The want of arms and proper military organization had added much to the cost of the war and to the burden of taxation There can be no doubt of the truth of that statement The first year or two of the war was fought under disadvantages such as no modern warring nation ever entered Its supply of arms was so meagre that it was found necessary to drill in the first regiments sent to the field half a dozen different styles of guns 1 8 muskets rifles of various manufacture shot guns etc and many of the regiments were delayed for months because of the impossibility of arming them in any manner The troops were all raw and totally unacquainted with the simplest elements of military organization Under such circumstances it would have been a miracle if anything like order and expedition had been achieved and it would have been a still greater miracle had the vast preparations found necessary been made without incurring an enormous expense

But whose fault was it that the country was found without arms and military organizations? The government had been long in the hands of the Democratic party For months—a year—before the first gun was fired at Fort Sumter the Democratic politicians knew that the rebellion had been determined upon With a full knowledge of this, the Democratic administration of Buchanan even after some of the States had declared for secession sent vast numbers of muskets cannon and ammunition from the northern arsenals to the South The North was almost totally stripped of arms The vessels of the navy were dispersed to distant stations The regular standing army, under the Democratic policy had been reduced and widely scattered. Every possible thing had been done to render the government powerless and to strengthen the insurrection. Even militia organizations and drill had been so discouraged by the Democracy that there were but few of the States which had even the semblance of a militia Seymour certainly made a hard hit at the Democracy when he referred in that manner to the condition in which the last Democratic administration had placed the country.

Political Items

Democratic tactics *Do little and Say* mour Grant's plan *Say* less and *do* more

Governor Geary has been elected President of the Gettysburg Battle Field Memorial Association

The Philadelphia *Ledger* (neutral) says the Democratic platform is a discreditable assault on the integrity and good faith of the nation.

The New York *Journal of Commerce* Democratic organ of the Dignity school, says the Democratic platform is an out-and-out repudiation of the solemn promises of the government

The bill removing political disabilities from several hundred persons in the South, was voted against by the Democrats solidly Democratic love of the South sometimes manifests itself strangely

The St Louis *Democrat* repudiates the idea that Missouri is doubtful It says: Count on Missouri for eleven votes for Grant, Colfax and Equal Rights with twenty thousand majority to back them"

Brick Pomeroy, of the La Crosse *Democrat* was lately refused membership in the Wisconsin Editorial Association on account of indecency Nevertheless, his paper is the most popular Democrat ic journal in the country

Gov Haight has issued a proclamation calling an election for Senator in the Eleventh Senatorial District, composed of the county of San Joaquin, to fill the vacancy occasioned by the death of the Hon J E Perley said election to be held on the 3d day of November next

The Yreka *Journal* says that the sum of $1 500 has been offered in that town on the general result —that Grant and Colfax will be elected—but the offer is no taker, The sum of $1 000 was left at the *Bee* office the day after his nomination and advertised to be wagered that he would carry California but there were no takers

Horatio Seymour, Democratic candidate for President of the United States, during the war used these words "If a crisis that slavery must be abolished to save the Union then the people of the South should be allowed to withdraw themselves from that Government which cannot give them the protection guaranteed by its terms

Gen Grant is supported by every illustrious soldier in the Union—Sherman, Meade Sheridan Stoekles, George H. Thomas, Hooker, Pleasanton, McDowell Canby Emory Schofield Mower Ord Halleck, Kilpatrick Logan Rawlings and a host of volunteer Generals, many of whom ha e heretofore been Democrats Gen Hancock is the only really prominent officer who seems willing to train with the anti war Democracy

Of Salathiel Curtis Coffinberry, the Democratic candidate for Lieutenant Governor of Michigan, the Detroit *Advertiser* says He was one of those men who never forgave Colonel Anderson for not surrendering when Fort Sumter was fired upon He preferred the Montgomery Constitution to the Federal Constitution and the usurpation of Jeff Davis to the administration of Abraham Lincoln He was opposed to the war throughout and never lost an opportunity to denounce it

The Wabash (Ind) *Express* says that a Sullivan County Copperhead named Murray Briggs by way of encouraging his political friends from the other counties of the Sixth District gave the following glowing account at the late Voorhees ratification held in that city of the ability of the Democrats of Sullivan County to furnish any majority that may be required Sullivan is a voting county, our Democrats can vote early and often We pledge from Sullivan all the votes that may be wanted to carry this district? we can supply any deficiency If we don t get votes enough in the ballot boxes on the first day we know how to get them in on the next day The same Sullivan County Democrats thought they had elected Voorhees in 1864 by getting ballots in the box on the way? they know how but it so happened that a Rump Congress investigated the transaction and gave their candidate his walking papers

The Herald for Grant.—The New York *Herald* since the nomination of Horatio Seymour, supports Grant and the cause he represents with vigor In its issue of July 14 the *Herald* says:

Without acknowledging that the very ardent of their great success that they regard of their adhesion to the great principles of which they conducted the recent war the American people cannot support a party opposed to that war and whose success would be a signal for the abandonment of the moral and political advantages gained to the country by the war It is in virtue of the war that we stand as we do in the eyes of foreign nations One of its greatest effects was to aggrandize our financial strength to show when our true proportions Let those who thought us insignificant shudder and to make us known as the leaders of the right of the very head and front of progress to all the peoples In this blaze of active struggle this concentration of our life that was crowded into the four years of war we have become an example to all the nations of a people devoted to freedom enlightenment progress and we must not believe that impression by going backwards We must not say we are sorry for the great things we did by giving our suffrages to a party that would have prevented us from doing them Through the political consequences of the war we must adhere to the great leader who guided us safely through the struggle, and help him still to keep the country right and keep down those violent political elements that swerve us from the direct path to one side or the other. We must stand by Grant as the best hope of the nation s safety and the only guarantee that we shall not be false to ourselves

DISPATCHES TO THE OREGONIAN

DATES TO AUGUST 11

The Presidency Promises Aid to the Fusionists of Louisiana

Washington Aug 11 It is understood that Colonel Dent of Grant s staff was ordered by the President that instructions be sent to the military officers in Louisiana to cause the ground to be occupied by the troops

Considerable interest has been felt to know whether the President would recognize the present governments in the Southern States as legal which he has not done heretofore There has been reason to doubt whether he would recognize them as legal under the constitutional government

The opinion of the Attorney General on the subject of the legal effect of the appointments made at this time by the President is considered conclusive over the whole ground and all questions which have arisen concerning the removal of Internal Revenue The Alaska collectorship and offices which appointments are thought to be pending will probably when completed be handed to the Secretary of the Treasury inasmuch as they will more properly perform duties under circumstances within the jurisdiction of the Treasury Department than elsewhere

The War Department has received General Gillem s order dated the 4th inst withdrawing the military Government from the State of Arkansas

EXTINGUISHER PORTABLE SELF-ACTING FIRE ENGINE!

THIS INVENTION HAS FOR ITS OBJECT THE extinguishing of Fires in a more perfect and economical manner than has hitherto been discovered

The advantages to be derived from the use of the EXTINGUISHER are as follows

Every fire begins on a small scale and its rapid and uncontrolable increase is owing to the fact that at the time of its commencement (when every moment's delay is fraught with the utmost importance) no means are ready at hand

The EXTINGUISHER is the only Engine that fills this requirement.

It is always ready for use, though standing unused for years

It puts out Fire instantly

It saves the great deluge of water now used for this purpose

It is as effective in the hands of a Boy as the most experienced Fireman

It is portable and as easily handled as a bucket of water

It possesses within itself the power of a force pump and as effective as a Steam Engine

It is the only known invention that will put out Fires from Kerosene, Tar, Naphtha, Gas, and such like materials now in common use

PRICE—No 1, $50; No 2, $55; No 3, $60.

AFFAIRS IN THE COLUMBIA.—A passenger just down reports miscellaneous items as follows: "Business is called dull at the various points. At Walla Walla the new church will be ready in a few weeks, and several dwellings are going up, yet on the whole, there is a lack of a general desire to improve. They are looking for a railroad to help them out ere long, and are ready now to help build a telegraph line. Crops are fine in that valley; wheat abundant at 75 cents per bushel..... No valid variety to mention there, of dance properly so called. Mrs. Hattie Parker on Monday began her relations[illegible] suit for divorce vs. H. Parker, before Judge Wycbe, on a plea of too great an intimacy of de[illegible] with a third party. About forty witnesses were called and great interest is manifested in the trial..... Mr. Rose, near Fort D'Orville like are reporting good prospects. They discovered there lately..... But few have left Walla Walla as yet, for those prospects.....Umatilla is [illegible] larger shipments of freight this summer than for a number of years, and with a telegraph connecting this department of trade could be done [illegible] advantageously. One of the chief features of business is the [illegible] ger traffic to Boise and the States. Among the list at the Orleans House (the stage house) there were the names of M. S. Burrell and Mr. Walker of Portland, booked for an early overland trip to the States..... The Portland Umatilla claims that more papers are taken [illegible] and read there than at any other place of its size..... Our informant learned the drift of Bailey's stage from Kegeney Ranch to Shasta, in an altercation, was shot dead at the latter place, on Tuesday last. Names not reported..... Mr. Rudd of Peoria, who has spent a few weeks in Owyhee, reports Silver City to be the liveliest place he has seen since he left Portland. They expect to be within 240 miles of the cars on the Central Pacific Railroad in six months, and are justly rejoiced thereat..... No further clue to the perpetrators of the late Express robbery on the Blue Mountains.....On our trip down to Celilo Capt. Coe remarked that the steamer *Nez Perce Chief* "behaved a little jolly." So thought we all.....On our trip both up and down the Columbia we met different parties on the way for a little summer recreation and ruticati on either at the Cascades or above, showing taste in selecting the Columbia for fine scenery..... The Bell Woolen Manufacturing Co. having completed the factory and the appurtenances thereto belonging, day before yesterday let go the [illegible]ter for the first time, and it is [illegible] 14 44 g, complete success. The works are moved by a turbine wheel of 300 horse power. The water has sixty feet fall, conducted in a solid, iron-[illegible] frame, at an angle of thirty degrees, carrying 600 [illegible] about 100 yards from the [illegible]ster. The same power is used 300 yards below for operating a new flouring mill, just completed, making altogether a splendid [illegible] to the manufacturing interests of the city. The [illegible] includes 440 spindles, looms, and 17 knitting machines, all of the latest patterns and the[illegible] to do the finest work.....Merchants there seem to be doing a fair [illegible] claim to be doing more than last year, and [illegible] fits in the interior are large this season. [illegible] are well patronized, and travel, (one of the [illegible] barometers of business there) continues fair. Mr. [illegible], of the Umatilla H[illegible], has been appointed to the place of his overworked (and now infirm) [illegible] to meet the demands of business.....The O. S. Co's. warehouses at Celilo and the Dalles also maintain the [illegible] of a fine freighting [illegible].

TRADE.—This branch of commerce on the coast is fast becoming one of the most important [illegible] in the enterprise and industry of our people. [illegible] great part of the country, together with natural facilities for their [illegible] into [illegible], give us an advantage over [illegible] of the United States. Already the [illegible] is finding a market in almost all [illegible]. The extensive mills in the region of [illegible] annually many millions of feet, and [illegible] and [illegible]. And there is no [illegible] should not receive [illegible] share of the [illegible] from the vast amount of this product to other shores. Our own resources in [illegible] are not surpassed by [illegible] inferior to those of our sister [illegible]. The [illegible] portion of the Willamette Valley [illegible] part of the world except the Pacific, [illegible] exceedingly well adapted to the [illegible] of commerce. Portland [illegible] is so situated that this branch of trade [illegible] enterprise could not fail to be largely [illegible]. Let the three mills in our city would [illegible] supply the home demand were it not [illegible] furnished from the adjacent [illegible] and Westport. The constant [illegible] requires the annual consumption of [illegible] of lumber. [illegible] resources, fisheries, and lumber [illegible] at the most attractive field for the [illegible] in the United States. Twenty [illegible] in the history of our State, with [illegible] connecting us with the East, [illegible] utility in the development of our [illegible].

[illegible]—Capt. Ockerly was [illegible] discovery of a [illegible]. It was said that a Chinaman [illegible] Front [illegible], near the store of [illegible], was [illegible] sick with that [illegible]. At the spot named on [illegible] into [illegible] had [illegible] sick with [illegible] to think is [illegible]. He had a red flag hung out, that [illegible] the infected [illegible], and [illegible]. The Chinese [illegible] he is [illegible] and has been sick [illegible] was covered with [illegible] tatoo of [illegible]. We are not able to state with [illegible] are [illegible] on the authority of [illegible] just [illegible] Federal ship [illegible]. We are confidently that our worthy [illegible] and that Dr Ellis is right. At [illegible] to be [illegible] tained as to the spread of [illegible] strictest care will be taken that all [illegible] with the patient be stopped as far as [illegible].

[illegible]—There is 4,000 feet of wharfin front of the Occidental pavement, there is, in length, [illegible],000 feet. There are [illegible] dwellings now in [illegible], the [illegible] cost of which will be [illegible]. [illegible] will be [illegible] in the session [illegible] at costing 50,000 feet of [illegible] are three [illegible] with [illegible] are about [illegible] drinks are sold, [illegible] that will [illegible] are right [illegible] regularly to and from this city. [illegible] in these directions [illegible] California [illegible].

[illegible]—This [illegible] will [illegible] so much has [illegible] lately, will probably be [illegible] Astoria, the U. [illegible] had been engaged to go out [illegible] her in. The *Shoalwater* went down [illegible] her [illegible]. It was reported on [illegible], after the arrival of the *Active*, [illegible] on the *Scenic Alice*, were [illegible] some of these, or four [illegible] able to trace the story to any very [illegible] we draw it the duty of our [illegible] in regard to allowing those [illegible] the city wharves and dock[illegible] place, for it is more than barely [illegible] they were all alive and well, [illegible] of the Celestial Empire.

[illegible]—The Oregon Iron Works have just [illegible] active, and have set up at their [illegible] engine, boiler and saw mill, all [illegible] at the building. It is built for [illegible] of this city, who will take it to [illegible], Columbia river, head of navigation, and put it in operation upon the ex[illegible] there growing. This mill [illegible] of our Victory we have [illegible] all the strongest possible for its [illegible] is of 20-horse power with 12-inch [illegible] cylinder. The boiler is 12 feet long and [illegible] ter. Steam was raised in it yesterday [illegible] was found to work with all possible ease. [illegible] it will be placed on wheels and taken [illegible] the wharf, where it will be immedi[illegible] in its destination.

[illegible].—By the *Spaulding* and *Alert* yesterday from Oregon City, the following freights were [illegible] from the Willamette valley: 424 qr sks [illegible] dried apples, 17 box apples, 60 boxes [illegible], 10 tubs wool, 54 gunnies lumber, 12 [illegible] hides, 30 firkins eggs, 2 rolls leather, 2 kegs [illegible], 1 gunny cow tails, 1 coop ducks, and [illegible].

[illegible] In our printed proceedings of the meeting [illegible] Council of Wednesday evening, an error occurs [illegible] the passage of the ordinance extending [illegible] the contractors for repairing Front street [illegible] the Mayor. The ordinance was not passed [illegible] the vote, but was lost.

[illegible].—A wheel for the main belt in a [illegible], has just been cast at the Oregon [illegible]. It is [illegible] over 28 feet in breadth. It is [illegible] with the utmost exactness, and is probably [illegible] kind on the Pacific coast. The [illegible] upon this wheel will cost from $700 to $900.

[illegible].—At Chambers, yesterday, before [illegible], the above entitled action was heard upon [illegible] from Justice Trahor, of East Portland Precinct. The decision of the Justice was reversed.

[illegible].—The McAdamizing of Washington [illegible] is to be extended to beyond Third. Barring the sharp, [illegible] of the cross-walks, it will be a pretty good [illegible] when being worn down.

[illegible] AGAINST THE CITY.—Suit has been commenced by [illegible] & Dellinger against the city of Portland, to [illegible] the latter from proceeding with the proposed improvement of B. street.

[illegible].—The steamship *Geo. S. Wright* sailed for Victoria last evening at 7 o'clock. The steamship [illegible] will sail for Victoria on to-morrow evening at 7 o'clock.

[illegible].—The *Brewster* was towed to St. Helens [illegible] day, by the *Oswegan*. She will receive a cargo of lumber from the St. Helens Mill Company, and [illegible] in a few days.

[illegible].—A horse raised by Mr. Myers, of [illegible] county, and sold by him for $300, recently trotted [illegible] in 2:36, and was sold for $4,200.

[illegible].—The bark *Melancthon* sailed from [illegible] for this place on last Wednesday.

TAX following is the freight list of the steamer *George S. Wright*, which sailed for Victoria last evening at 7 o'clock: 3 boxes apples, 1,200 sks flour, 70 sks middlings, 119 sks wheat, 21 gunnies bacon, 2 cases lard, 2 kgs lard, 12 bbls beef, 64 sks oats, 100 head sheep, 22 sks wheat.

FELL FROM A HORSE.—A small child of Mr. Brooks' fell from a horse on Madison street, yesterday afternoon, and was just badly, but not dangerously hurt, about the head, face and shoulders.

AN OLD PORTLANDER.—Dr. Mack, late of this city, has quit the practice of dentistry, purchased a ranch east of the Mountains and gone to raising blooded horses.

CATTLE.—A large band of cattle passed through this city [illegible] day. They were brought from Yamhill county and are [illegible] driven to Walla Walla.

HIDES.—Over 1,000 raw hides have been brought down from Eastern Oregon, by the Columbia river boats during the past few weeks.

DEM.—The steamship *Continental* is now due at this port, she having left San Francisco on the 11th. She may be expected to-day.

IN PORT.—The steamship *Active*, from Victoria, arrived at her wharf in this city yesterday morning at one o'clock.

COAL.—The steamship *Active*, which arrived yesterday morning, brought 200 tons coal from Nanaimo for the C. C. & M. S. S. Co.

Mr. Joseph Armstrong, while engaged in arranging some of the machinery of the Salem flouring mills on Wednesday last, got his arm entangled in the conveyor, by which it was broken in three places.

How often do you hear the complaint from mother and father that their son or daughter is not well; that they have no appetite; that they feel languid; that their head aches; that they are growing thin and feeble, and that they have no life or energy left. That they are low spirited, and perfectly incapacitated to participate in any pleasures, or perform any mental or physical duty. Ask the question is as often asked, what shall I do for them? Our answer is, let them try PLANTATION BITTERS immediately three times a day, and our word for it they will recover.

G. VENARD,

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS. 626 AND 628 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commends itself, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of its consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

The Pendleton Escort

The Oblong came I will like a wolf on the fold,
And his Escort was coming with greenbacks and gold,
And the sound of the hoofs was like thunder all round
When the bullets flew light thro' our packed Tam under

Like the waves of the field as an evening sea sweep,
That has set her to freely at sunset was a
Like the leaves of the forest when autumn hath blown
The escort next morning was alter sh d e own

For the sight of what all could fill a heart with dismay
And buttons led many a Western ma fag
Cold greenbacks and U K we pe ardy and U
Till a poor terrified Irregulars yielded to fate

As I pour Clo ost all alone in a w d
All the sports are all b oke who went to collect a ba
For the night of Young Greenbacks mesmote by the sword,
Hath melted like snow and hath gone by the board

The Nova Scotian Troubles

The following from journals will serve to explain somewhat, the nature of the tr ble in Nova Scotia to which the telegraphic dispatches frequently refer

The Halifax *Citizen* edited by Mr E M McDonald, M P says

'The journals that have hitherto advocated the people's cause have not spoken, only because the crisis is too grave the emergency too serious, to be hastily or lightly dealt with Mere angry comments upon the past however natural, must now be a useless waste of labor while immature speculations on the future, be out of place at the present moment, and might be mischievous in a high degree On only one point can an opinion at this moment be safely pronounced th e can be no more delegations to England Come what may of political or constitutional changes, the people of Nova Scotia must never again be so deeply humiliated, must never so far forget what is due to their own dignity and self re- pe t, as to send delegates seeking redress for injuries done, to that power that contemptuously refuses to inquire whether or not injury has been done, and which has denied to Nova Scotia the rights enjoyed by British subjects in every other quarter of the globe

In a short time, perhaps next week the l gislatures will have returned in six weeks fr m the time the House of Assembly will again meet for business The interval will be em ployed in discu ing the new phase of politi cal affa s in which England's insulting an swer has plunged us; and when the Legislature a sembles, it will probably be prepared with an to the important q estion What they p sh an that will recommend itself to the feelings and j gment of the country

The Halifax *Reporter*, publishes and endorses as true the following letter from a correspond ent

If we want a road we must help our selves and if our t ect willing t do the let us q it talking about a railroad as even among the probabilities of the future

The *Leader* says that the Meadow Lake region still rests under a co ing of snow from four to six feet d p the season being fully six weeks later than ever before The Winter has been lingering in the lap of Spring, and n w has dispersed to try the ling, ring lodge the Summer

WHEN you are depressed by the gaunt sickly feeling of a disord d system which needs to be clean sed and stimulated into healthy action take a dose or two of AYER'S PILLS and see how you can be restored for a shilling

TO ALL WHOM IT MAY CONCERN.

PORTLAND Ogn July 20, 1868

As there are a great many people sick and dying of a so called C n ra Morbus, I would call attention to the Chinese Doctor Jim Having eaten green fruit I was taken very bad with the above ill ess and lay insensible for four hours, when Dr Jim was called and in 20 minutes after he gave me the first dose of medicine I was easy and by I believe that there is no other doctor in the Pacific coast that could have relieved me as quick as Dr Jim did M G MORGAN.

CAUTION

To all whom it may concern I hereby give no tice that the so called Shipley Double Turbine Water Wheel is an infringement on my Turbine Water Wheel Letters Patent dated July 31st 1866 and reissued July 23d 1867 and that I am the only lawful owner of the right to make use and sell the same in the State of California and Territory of Nevada and that I will prosecute and enjoin infringements to the utmost extent of the law

That all may know I am what I say and do not play my light I give the following extract from a legal opinion on the subject from one of our most eminent Patent Attorneys in the United States

Washington D C July 31 1868

MR A MYERS—In accordance with your request we have carefully examined into the validity of the so called Shipley Turbine Wheel and are clearly of opinion that it is an infringement on the Leffel Patent No 19,906 dated March 30th 1858 and reissued July 23d 1867 The fact that Shipley has applied for a reissue for the same thing is a clear indication of the fact that Shipley himself considers his wheel an infringement on the Leffel Patent and is endeavoring to get the same by reissue
